Pursuant to Public Utilities Code § 399.8, directs Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas & Electric Company, to collect monies from customers to fund investments in energy efficiency, renewable energy and research development, and demonstration projects.

A draft resolution of the Energy Division as Public Utilities (PU) Code § 399.8 requires the three major California investor owned electric utilities to assess a Public Goods Charge (PGC) to customers in order to fund certain public interest programs. It specifies that, starting January 1, 2002, \$425.5 million be provided to these programs each year until January 1, 2012. Opening comments are due on November 4, 2002 and reply comments are due on November 12, 2002. Both opening and reply comments are limited to five pages. Copies of the resolution can be obtained by contacting:

	I95-02-015	Commission Order Instituting Investigation into rates, charges, service and practices of PG&E.

Summary: On October 7, 2002, Les Guliasi, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Manuel Ramirez, advisor to Cmmr. Wood, in San Francisco and on the same day, November 1, 2002, as a follow up to the meeting, Bruce Smith, Manager, Operations Revenue Requirements, PG&E, left a telephone voice mail message for Manuel Ramirez. At the meeting also present was Brian Cherry, Chief of Regulatory Relations, PG&E. Guliasi stated that the Commission should clarify in its decision that the \$10.6 million downward adjustment to supervision costs in Account 903, is effective prospectively, not retroactively, to January 1999. Smith stated that with respect to the supervision costs in Account 903, PG&E relied on the revenue requirement in its entirety as adopted in the decision.

11/6/02	I00-11-002	Order instituting investigation on the Commission's own motion into the adequacy of the Southern California Gas Company's and San Diego Gas & Electric Company's (SDG&E) gas transmission systems to serve the present and future gas requirements of the SDG&E's core and noncore customers.

Summary: On November 1, 2002, Brian Cragg, representing Cabrillo I, LLC and Cabrillo II, LLC (collectively, Cabrillo), had a telephone conversation with Belinda Gatti, advisor to Cmmr. Brown. Cragg noted that the proposed decision (PD) would require gas transportation customers of San Diego Gas & Electric Company (SDG&E) desiring firm service to make firm commitments for transportation capacity, even though they have no current ability to secure matching commitments on the upstream system of Southern California Gas Company, due to the delay in the implementation of the Comprehensive Settlement Agreement. Cragg stated that many customers, like Cabrillo, would also be reluctant to enter into firm commitments unless a system of tradable rights was established. Cragg stated that these two aspects of the PD put electric generators whose need for transportation service depends on highly variable demand for electricity, in an untenable situation. Cragg also suggested that the decision should provide more clarity about how interruptible rates would be established, and urged that interruptible rates should be negotiated between SDG&E and parties desiring interruptible service.

11/6/02	A01-09-024	Southern California Gas Company (U 904-G), for Authority to Revise its Rates Effective January 1, 2003 in its Biennial Cost Allocation Proceeding.
	A01-10-005	San Diego Gas & Electric Company (U 902-G), for Authority to Revise its Gas Rates Effective January 1,

2003, in its Biennial Cost Allocation Proceeding.

Summary: On November 1, 2002, Brian Cragg, representing Electric Generator Alliance (EGA), had a telephone conversation with Belinda Gatti, advisor to Cmmr. Brown. Cragg noted that item CA-13 on the Commission's agenda for its meeting of November 7, 2002 was opposed by several parties. Cragg stated that the proposed decision (PD) would eliminate Southern California Gas Company's (SoCalGas) risk related to noncore throughput revenues beginning in 2003. Cragg noted that the PD would adjust only one component of rates, while leaving all other components untouched. Cragg suggested that the result of granting SoCalGas' request would be noncore rates that have no internal consistency.

Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

Summary: LATE FILED. On October 31, 2002, Dr. Barbara Barkovich representing the California Large Energy Consumers Association (CLECA) had a telephone contact with David Gamson, advisor to Cmmr. Brown. Barkovich discussed the workings of the Total Portfolio Cost model. Barkovich expressed concerns about the use of any methodology that blended the utility retained generation costs of the three utilities or attempted to create cross-subsidies in the development of the CRS among the customers of the three utilities. Barkovich noted that the Total Portfolio Cost model does create a high CRS for San Diego Gas & Electric Company because of its heavy dependence on power from the Department of Water Resources.

Summary: LATE FILED. On October 31, 2002, Bruce Foster, Vice President of Regulatory Operations at Southern California Edison Company (SCE), met with David Gamson, advisor to Cmmr. Brown, Laura Krannawitter, advisor to Cmmr. Duque, Kevin Coughlan, advisor to Cmmr. Peevey, and Robert Kinosian, advisor to Pres. Lynch, in four separate meetings in San Francisco. At the meeting with Cmmr. Duque also present was Lynne McGhee, advisor to Cmmr. Duque. Michael R. Hoover, Director of Regulatory Policy and Affairs, SCE, participated in all the meetings. Foster and Hoover discussed the Direct Access (DA) exit fee and, among other things, stated that the Department of Water Resources (DWR)-related exit fee for San Diego Gas & Electric Company (SDG&E) DA customers must reflect the fact that a substantially higher percentage of the load the DWR expected to serve in SDG&E's service territory switched to DA. Foster and Hoover argued that in no way should the Commission set a precedent for a uniform cents per kWh statewide allocation of DWR costs. Foster and Hoover also suggested that the Commission needs to address exit fees for

municipalization, distributed generation, and municipal aggregation.

Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

Summary: On October 30, 2002, Julie Blunden of Strategic Energy, representative of the Alliance for Retail Energy Markets (AREM), met with Kevin Coughlan, advisor to Cmmr. Peevey, and David Gamson, advisor to Cmmr. Brown, in two separate meetings in San Francisco. At the meeting with Kevin Coughlan also present was Lynne McGhee, advisor to Cmmr. Duque. Mona Petrochko of Constellation New Energy and Dan Douglass, counsel to AREM, participated in both meetings. A written communication (attached to the notice) was subsequently sent on October 31, 2002 by electronic mail to Kevin Coughlan, Lynne McGhee and David Gamson. AREM representatives urged that the Commission adopt a cap no higher than 2.7 cents/kWh and that the definition of continuous customers should include customers that were involuntarily returned by their ESP prior to the normal expiration date of their contract. AREM representatives also suggested that the exit fees should be on a uniform statewide basis, rather than on a utility-specific basis.
